

Sharing MLA format

This is what we (the business department) are teaching the freshmen to use to correspond with the GRP/MLA format. We are having them use this for research papers, etc. We figured if we use this 3-4 times a year and reinforce it that they will be accustomed to the new style and GRP's won't be so foreign to them.

We have color coded them to make it easier to talk about.....

Yellow - title page

blue - 1st page of paper

green - 2nd page of paper (if needed)

pink - works cited page
